Celosias

Presentamos la nueva colección de celosía arquitectónica de Duralmond.
Un planteamiento de piezas de gran tamaño para ser aplicado en interiores y fachadas. Se pueden utilizar para conseguir profundidad, para separar ambientes, para tamizar la luz solar o simplemente para decorar interiores y exteriores, y con una gran diversidad de acabados.
Los materiales empleados son duralmond de 60 mm. de grosor o tablero estratificado marino de 24 mm. de grosor.

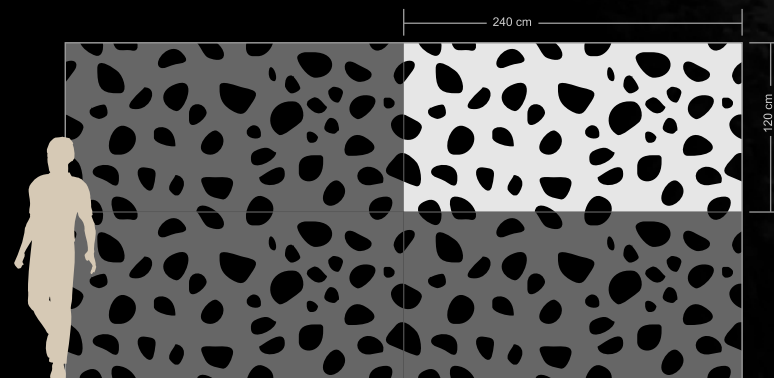

Lattice

We present the new collection of lattice architecture from Duralmond.
An approach using large-sized panels for both indoor and outdoor applications. A wide variety of finishing's are available and can be used to achieve more depth, to separate environments, to sift sunlight, or simply to decorate interiors and exteriors. The materials used are duralmond 60mm thick or stratified panels with a thickness of 24mm.

A medida / Custom

Podemos fabricar piezas a medida a petición de nuestros clientes. De esta manera, arquitectos, interioristas y prescriptores en general pueden diseñar sus propios celosías.

We can manufacture customised pieces upon request. In this way, architects and interior designers are free to design their own latticework.
